

Kiwanis Trip

The Grayling Fire Department agents put on a last half rally and a Kiwanis trip to the Grayling High gym last Saturday night.

A medium-sized crowd watched the smoke eaters hit the first basket to take the lead. Kiwanis managed to take the lead in front of the crowd.

The Kiwanis, however, hit for 11 points in the final half on the sharp shooting of Frank May and Kap Papendick while Kiwanis managed but 8 points.

Bob Force with 9 points on four buckets and a foul shot paced the Kiwanis. Allen Stevenson added 6 points and a lot of helpful rebounding. John Latuszek got the other half goal for Kiwanis. The Kiwanis with Les Goss adding 5, Frank May 4, Clarence Papendick and Clyde Hatch a field goal each.

Others getting in the contest but not hitting the scoring parade were: Tom Welsh, Ed Lowe, Lawrence Hunter, Dr. Ralph Hoffman and Neil Olson; for the Fire Department, Delbert Bailey, Ed Sorenson and Walter Sorenson.

The Grayling High School Band under the direction of LeRoy Christian provided stirring music prior to the game's start and also at halftime. Other halftime entertainment was provided by an abbreviated basketball game between the Grayling 8th and 9th grade teams. The 9th graders walked off with a 20 to 11 win but not before the younger lads had given the older boys a real stiff battle. Sherman Neal with 3 points was high for the winners with Ted Carlson adding 7, Chris Kroll with 5 was high for the losers with Tom Wright adding 4.

Officials for the game were: Howard "Whiffey" Medsker and Gordon "Sandy" Thompson. Larry LaGrow was scorer and Oscar Horning time keeper. Eric Post handled the public address system.

As the players of both squads were generous with the rubbing of alcohol and other balm on Sunday and yet on Monday, it was impossible to get a definite answer as to whether the two squads would lineup for another game next year. Some came up with such silly answers as "haven't the wind anymore" to "groan-grunt-groan." Hopes are high amongst the fans that another game will be slated for next year.

It is expected that representatives from the Crawford County Chamber of Commerce, the Michigan Department of Conservation and the Grayling Business Association among others will be in attendance.

Riggs, NMDCC president.

The Council sees much of Michigan's future as very closely related to the proper management of this land. Problems presented by the panel for discussion will be concerned primarily with the cultural, historical and recreational developments of Northern Michigan.

The conference which will be chaired by President Riggs, and moderated by Dr. C. L. Anspach, President of Central Michigan College, is scheduled for the afternoon of April 15 at the Higgins Lake Conservation Training School. Registration begins at 11:00 a. m. and adjournment is set for 4:00 p. m.

Group Seeks Supervisor Action On Deer Killing Dogs Thruout County

Fred Bear, president of the Bear Archery Company of Grayling who is very concerned about the problem said in a letter to A. L. Roberts, Supervisor from the City of Grayling.

"My thinking on the problem is based partly on sympathy for the deer dogs kill and partly from a business point of view. Grayling has been and is extending efforts to obtain new industry. The city and county have always depended a great deal on the tourist for revenue. Almost every one points to the desirability of having deer for the tourist to see. Following our extremely hard winter this year with the desperate period that we are now going through with the slaughter of deer by dogs there seems to be a question as to how many deer will be left only for the tourist to see, but for the hunter to hunt.

With this in mind it would seem most imperative that some conclusion be reached whereby the city and county could come forth with a permanent plan for obtaining the services of a dog catcher this year and for years to come. This letter, I believe, rather completely expresses not only my thinking on the subject, but that of most citizens in our community."

State Legislature Commends Newspapers

Lansing, Mich. — The Michigan Legislature has commended the Crawford County Avalanche and more than 300 other Michigan newspapers for participating in a unique industrial development advertising program.

The resolution, adopted unanimously by members of both the House and Senate, paid tribute to the newspapers for publishing a year-long series of industrial development advertisements sponsored by the Michigan Press Association and Michigan Economic Development Department.

Calling it "an outstanding example of public service," the resolution said the advertisements have made Michigan residents "aware of the need for effective local industrial development programs."

"These advertisements have brought to millions of newspaper readers a better concept and understanding of industrial development and the need for participation in such local undertakings," the resolution said.

"This understanding seems certain to lead to stronger industrial development programs to attract new industry to our State and to encourage Michigan industries to expand within our boundaries."

The advertising campaign will help "assure continuing progress and a greater Michigan" the resolution said.

The resolution extended "the appreciation of the people of Michigan" to newspapers "who are participating so generously in this advertising campaign as a means of advancing the industrial and economic progress of every Michigan community."

Begin Campaign To Sell State's Unlimited Advantages, Opportunities

AN AMBITIOUS CAMPAIGN to sell the unlimited advantages, opportunities and resources of Michigan is underway.

Two hundred outstanding business, industrial and civic leaders, members of Michigan's Industrial Ambassador Corps, and the shock troops. The support of all citizens will be enlisted to help them.

Merritt D. Hill, general manager of the Ford Motor Company's Tractor and Implement Division at Birmingham and chairman of the Ambassadors Executive Committee, is spearheading the drive.

In view of the unfavorable publicity about Michigan which has been appearing throughout the nation, Mr. Hill points out that the need for positive action and selling Michigan is urgent and that every effort must be put forth to do the job as quickly as possible.

"As citizens and as Industrial Ambassadors," he declared, "it is most important that we take a positive approach to the unfavorable situation, do all we can to correct it, and get the picture in its true perspective."

Hill set the tempo for the Ambassadors' campaign in a frank talk on the subject before the Michigan Club recently.

"Michigan, at this moment, is probably the most maligned state in the nation," Hill said. "The State's problems have been magnified all out of proportion," he continued, and Michigan has made a "spectacle" of itself before the rest of the country because of "partisan politics."

We have hurt ourselves in the eyes of others "for some very selfish, short-range motives," Hill stated. "In becoming so engrossed with the techniques of 'back-alley in-fighting,' we appear to have almost forgotten how to take a constructive approach to economic problems."

Michigan citizens should keep in mind that the need for a good economic climate will always be with us, the Ford executive emphasized. "Whatever the political personalities, the party lines and programs will undergo constant changes."

Hill said it is vital for everyone to vote and "we must preserve and defend the right to speak freely" on all issues. However, it is also part of our American heritage that "United we stand, divided we fall," Hill said. "Many in Michigan, it seems, have forgotten that saying."

Michigan has so many things to be proud of that its people "have more reason to walk with a swagger than any Texan I ever met," Hill reminded.

"If a Texan had this kind of ammunition, he would shoot off like a 21-gun salute," he said. "But we Michiganders tend to sit on these facts and wait for them to hatch. We should take a lesson from the rooster—and do more crowing and less clucking."

The Chronicle praised Hill's address. "The blast that came from Mr. Hill, in regard to the way the state has been maligning itself, was music to our ears," the Chronicle said.

The Joe Newmans are on their way home from Florida after a ten-day vacation. The Art Nummer family went down with them, and Earl D. is back after spending a ten day vacation in Flint with relatives and friends.

John Hartley is home again from a trip to Jackson—visiting friends. We call him the Bear Lake Miracle.

This Tuesday will be our last pedro party for the winter, and we want to thank the gang and Mel for the nice birthday present. The Bill Rays from Orionville spent a few days here with us as they could not get in their cabin.

Kitty Dyer has gone to Jackson to spend at least a month with her sister Beth Ann. The Sox Hendricks and Red Robison families spent Easter in Kalamazoo and Grand Rapids. We had our Easter breakfast at

the Herb Spaulding cabin as usual, they are from Flint. Mrs. Vanden Bosch, Sr. is back from Ann Arbor to open his home for the summer.

Notice! Have you mailed in your Easter Seals? This is the last week. If not do it now. Will you please? And if you are wondering about the penny game out here there was nine hundred and ninety pennies on the bar. All together the total for Easter Seals was \$28.02. We thank all of you. The folks saw their first robin.

He stops with Buick's exclusive braking system. (Fin-cooled, front and rear, aluminum drums in front.)

When he wants to speed up or slow down, he feels the quick answers of the smoothest transmissions of all... (only Buick combines Twin Turbine* or Triple Turbine* transmission smoothness with Wildcat getaway).

But why not find out for yourself? This car's quietness of motion. Its comfort of roominess and ride. Its willingness to do exactly what you wish of it.

As Others See Us . . .

The following editorial reprinted from a Florida daily newspaper was forwarded by a Michigan couple spending the winter there. We pass it along to let the readers see the type of publicity the Wolverine State is receiving in other parts of the nation.

Death Grip On Michigan . . .

What can happen to a state when socialism and labor union domination take over is being graphically demonstrated today in Michigan.

Despite general prosperity in the nation, unemployment is rife, the business climate bad.

Up there they're calling it the Reuther Depression. Hundreds are escaping in caravans bound for Alaska to start life anew. And this is odd because Alaska is the symbol of right to work which is condemned by all labor bosses.

A large part of Michigan's troubles began with the administration of Gov. Soapy Williams, a puppet of Walter Reuther's United Auto Workers.

Gov. Williams' policies have brought the giant industrial state to the brink of bankruptcy.

One of the 300 Detroit policemen said to have applied for jobs in other cities is quoted as saying Michigan is going bankrupt . . . you see people who are on relief driving around in Cadillacs. The word's going around that the thing to do is come to Michigan and go on relief. There's no future for us in Michigan."

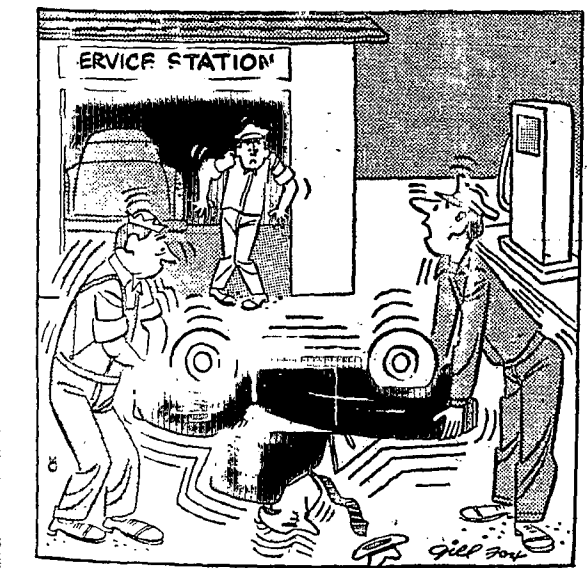

Michigan's plight of soaring debt brought on by its welfare state policies is shown by the recent news that Michigan industries are making advance payment of taxes to keep state government payrolls going.

Here in Florida, thanks to sane legislators, thoughtful citizens and our right to work law, we're not troubled by labor bosses, by socialistically-inclined politicians.

We are trying to cut expenses in government rather than increase them.

We're determined to avoid the wastrel type of administration which has brought disaster close to the Michigan government and has removed all optimism or the future for many of her citizens.—Orlando (Fla.) Sentinel.

Home Away From Home . . .

Burns, Kansas, has a population of only 310. But the Institute of International Education has presented the people of Burns with its coveted award for distinguished service.

The award was given for the achievement of the Burns people in creating a home away from home for foreign students from all parts of the world. Since 1954, young men and women of every race, creed and color have been welcomed into the homes of the Burns farmer, the cabinet-maker, the minister, the businessman, the teacher. A foreign student characterized the distinctive character of the little town in these words: "Burns is on the way to and from everywhere."

The first visitors were 10 foreign students from the University of Kansas. Not only did they return, but they brought with them friends from campuses across the country.

In five years, 77 students from 37 countries—Hindus, Christians and Buddhists — have come to Burns not once but many times. The magnitude of this can be seen in a simple statistic — if the city of Washington, with its 800,000 population, had opened its homes on a comparable scale, it would have had 192,000 guests from abroad during that time!!

It has been said that "Burns is the smallest U. S. community with the biggest foreign diplomatic service in the world." Burns deserves a salute that can be heard around the world.

Waldemar Hanson has secured employment on the "Section" and is located at Wolverine.

Wilhelm Rase arrived home Tuesday from Texas where he had been for the past six weeks. He says the crops on his Texas lands have been fine. Billy is as brown as a nut and a picture of health. He says that he played golf about every day he was in Texas.

Miss Virginia Kraus, daughter of Mr. and Mrs. Emil Kraus, of Grayling, returned Wednesday from Marygrove College, Detroit, where she is a freshman, to spend the Easter vacation with her parents. Miss Virginia, member of a class in oral expression at Marygrove, took part in the poetry festival held Sunday afternoon, April 5, at the college auditorium.

Yellow nasturtiums and forget-me-nots arranged to reflect from a table mirror made a very attractive centerpiece for the long table at which Miss Margrethe Bauman served her luncheon guests Saturday afternoon. Members of her contract club and guests, Mrs. Harold MacNeven, Mrs. Frank Bearsch and Mrs. Harry Connine, made up the party. Mrs. O. P. Schumann held the high score for the club and Mrs. Bearsch for the guests.

After a few days of decent weather, it turned cold last week Thursday and has been keeping it up ever since. Saturday morning thermometers at the fish hatchery registered 2 degrees below zero. The cold was accompanied by snow and it seemed to be sticking with us. In fact, we are in the midst of winter weather.

even though the date is April 8th. Dave LaMotte, one of our oldest settlers, says he never before knew winter to hang on so persistently.

Fire believed to have been started from an overturned brooder lamp caused a fire at the Floyd Goshorn residence which completely destroyed an outbuilding in which three hundred baby chicks were housed. A building directly adjoining and used as a garage was also destroyed, but Mr. Goshorn was able to save the car. The fire had not been discovered until about five o'clock when Mrs. Goshorn first noticed the flames as she was preparing breakfast. The building burned so rapidly that nothing else of value was saved and the chicks and various stored articles of furniture were also destroyed.

Miss Agnes Hanson of Clare spent the weekend visiting at the parental home.

Mrs. Joseph McLeod entertained several ladies Saturday afternoon, and sewing and visiting were enjoyed.

Oscar Smith was guest of honor at a party Saturday evening at his home, the occasion being his birthday anniversary.

Mrs. Harold Cliff of St. Ignace is visiting her mother, Mrs. Marius Hanson over Easter. Mr. Cliff will join her tomorrow.

Mrs. Adolph Peterson and daughters Jerline and Natalie accompanied to this office temporarily, or until a new agent is appointed.

Mrs. Olga Boeson, who is making her home in Detroit, is spending the week here a guest at the Louis Herbison home, and visiting with her many old friends.

Mr. and Mrs. Marlon Richmond of Higgins Lake returned last week from a visit with relatives and friends in Bay City, Saginaw and other southern Michigan cities.

Mrs. Ernest Hoevel entertained her bridge club yesterday afternoon at luncheon. An Easter arrangement made the table very attractive. Mrs. Emil Giegling held the high score.

Nels Olson returned to his studies at M. S. C. Lansing, Sunday after spending the spring vacation at his home here. Mr. and Mrs. Olson accompanied him as far as Clare on his return and then drove to Bay City to call on relatives.

Once a fisherman always a fisherman" was proven to be a fact Saturday evening, when Gene Papendick, of the Connine Grocery, journeyed north to East Jordan to try his luck at smelt fishing. According to reports, Gene waded boldly into the River Jordan, warily laid his net and, after waiting patiently for a few anxious seconds, hauled in his catch. He was greeted by the frantic thrashing about of one small fish. Not to be daunted so easily, Gene spent quite a little more time "fishing" about in the water and backing up his casting style with unprintable cajolery, but the fish weren't to be taken in by any such flattery. Whether Gene feasted upon his catch, had his picture taken with it, or had it mounted, has not yet been learned. He probably just ate it.

Mr. and Mrs. Alva Stephan, accompanied by Mr. and Mrs. Leo Morency, spent Friday evening visiting friends at Roscommon.

Mrs. William Randolph and daughter Miss Irene were in Bay City and Saginaw Tuesday and visited Mr. and Mrs. Roy Barber and Mr. and Mrs. Hal Trahan.

panied by Miss Ingeborg Hanson, drove to Cadillac Saturday, and spent the day.

Mrs. Evelyn Sorenson was hostess to the girls of the "Just Us" club Monday evening, and all members were present, together with a guest, Mrs. Robert Sorenson. A nice lunch was served. The next meeting is to be held at the home of Mrs. Floyd SanCarter.

Melvin Neilson celebrated his 14th birthday Saturday by entertaining twelve of his friends. There were games during the afternoon with prizes awarded and a lovely lunch was served by Mrs. Neilson. In the evening Melvin took his guests to the Rialto Theatre, closing a memorable birthday.

A number of friends of Mr. and Mrs. A. J. Scott met at their home Friday evening, as a sort of farewell party, since they plan to move into their down river lodge in the near future. The occasion was also Mr. Scott's birthday anniversary. Pinochle and Bunco were enjoyed and a nice lunch served. Prizes for pinochle were won by Mr. Scott and Earl Broadbent and the bunco prizes were given to Mrs. Earl Broadbent and Mrs. Wilbur Broadbent.

DR. LEE DE FOREST, VACUUM TUBE INVENTOR, PRAISES HEARING AID

Lee de Forest, who made modern radio and television possible through his invention of the vacuum tube fifty years ago, recently lavished high praise on a revolutionary new hearing device called "The Listener." "It is," Dr. de Forest said, "without question the finest hearing aid I have ever worn. Nothing compares with it for the quality of hearing it gives."

Commenting further, Dr. de Forest continued: "The advantage of ear-level hearing and the elimination of irritating clothing noises make 'The Listener' a real pleasure to wear. In fact, it overcomes all the objections I previously had to wearing a hearing aid."

So great has been the interest in this remarkable new electronic hearing achievement, the makers have prepared an illustrated report outlining in detail how it functions. These interested may obtain a free copy from Grayling Pharmacy, 208 Michigan, Phone 5051.

Many Without Jobs While Positions Open

The United States today finds itself in the paradoxical position of having over four and one-half million men and women unemployed while thousands of jobs go begging in the health fields. Mr. John H. Peterson, chairman of the Crawford County Chapter of The National Foundation, said today.

According to recent figures, Mr. Peterson said, there are now some 430,000 nurses in the field, but at least 70,000 more are needed. There are 8,500 physical therapists; but 7,000 more are wanted. There are 3,300 medical social workers; but 6,500 more are needed. There are 5,500 occupational therapists; but 10,000 more are needed. There are 227,000 doctors, but not enough new ones are being trained. Most of the other health professions are equally understaffed.

To aid young Americans to the unlimited opportunities open to them in the health fields and to aid some of them in obtaining their training are the purposes of the new multi-million-dollar Health Scholarship Program of The National Foundation, the chairman said.

"Through this program, to be supported by March of Dimes funds, a minimum of 505 four-year college scholarships will be offered annually," he explained. "Each scholarship will pay \$500 a year, or a total of \$2,000 for four years of college training in the fields of medicine, medical social work, physical therapy, nursing and occupational therapy."

Twenty Health Scholarships are being offered in Michigan this year, Mr. Peterson said. In addition, it is hoped many future college students will investigate these career possibilities and plan their courses accordingly.

All graduating high school seniors interested in the fields of nursing, physical therapy or occupational therapy should apply now, Mr. Peterson pointed out. College sophomores entering their junior year and intending to study medical social work and college students planning to enter medical school this year also should apply immediately.

Applications must be in by May 1, 1959. Application blanks may be secured from guidance officers or principals of all high schools and deans of accredited colleges.

"The Health Scholarship Program represents an unprecedented effort to do something concrete about a critical national problem," Mr. Peterson said. "In the past, America has failed to invest enough of its money in its brains. The result is that today, with millions of Americans looking for jobs, the health fields are in tragic need of trained people."

"It is impossible to estimate how many people now crippled and disabled by disease could be returned to a useful place in society if the trained hands and minds necessary to apply what we already know in medical science were available. We are wasting our greatest natural resource — manpower."

Northern Michigan Can Expect Slight Manufacturing Increase

Northern Michigan can expect only a slight increase in manufacturing and manufacturing employment by 1970.

So declares W. Paul Strassmann in a new Michigan State University booklet, "Economic Growth in Northern Michigan." An economist at M.S.U., Mr. Strassmann wrote the booklet for the M.S.U. Institute for Community Development and Services.

Employment in manufacturing in Northern Michigan, which reached a peak of more than 40,000 during World War I, and dropped to about 35,500 today, may edge up again toward 40,000 by 1970, observes Mr. Strassmann.

On the optimistic side of the issue, Mr. Strassmann sees these possible gains:

- Industries using local materials will expand during the 1960's.
- Favorable labor conditions will continue to bring in marginal metal-working plants during booms.
- Other small companies will locate in Northern Michigan because of their owners' attachment to climate and scenery and partly because of special gifts and concessions by particular towns.

The depressing side of the manufacturing picture for Northern Michigan, as viewed by the economist, includes:

- Petroleum refining and certain types of wood manufacturing will probably decrease because of resource depletion and technological change.
- Many of the marginal metal-working plants started during the boom periods will fail during recessions.
- The probability of expansion in manufacturing unrelated to local markets or local materials appears low.

As a general statement, Mr. Strassmann contends, "The availability of labor, certain materials, climate, scenery, local promotion and improved transportation facilities causing some of Northern Michigan as industrialized as the lower Midwest."

The M.S.U. economist continues to evaluate the situation by writing:

"Given the economic conditions of Northern Michigan, manufacturing cannot lead to much progress unless it is manufacturing for export."

Mr. Strassmann asks Northern Michigan to consider markets, labor and materials as it evaluates its potential growth for manufacturing. Three of his conclusions:

1. The M.S.U. economist continues to evaluate the situation by writing:

On Saturday, March 21st, four students from Grayling High school attended the Teen Age Traffic Safety conference at Central Michigan College at Mt. Pleasant. The students left Grayling at 6:30 a. m. and returned at 5:30 p. m. Participating were Patti McNeil, a junior; Russell Gust and Linda Smock, sophomores; and Elaine Bancroft, a freshman. Mr. Robert Bovee was their adult advisor. Mr. Bovee is the Driver Education instructor at Grayling High School.

The program went as follows: 9:00, Registration; 10:00 Opening session in Warriner Auditorium. (Invocation and speech by Mr. French of the National Safety Council); 11:00 Various panels on different topics; 12:00, Lunch; 1:00, Discussion groups on topics; 2:15, Closing session in Warriner Auditorium. (Reports from students of each discussion group.)

Elaine Bancroft was a member of the discussion group, "Traffic Courts and Schools."

Russell Gust was in the discussion group, "Alcohol and Driving."

Linda Smock was a member of one of the panels, "Statistics of Drivers' Education."

Patti McNeil was a panel chairman of the topic, "What is Good Enforcement?" She also made the report from her discussion group at the closing session.

The students on the discussion groups, which they were assigned upon arriving, listened to the panel discussions. Then in the afternoon discussion groups hashed everything over.

The purpose of this program, conducted mostly by Teen-Agers is to help the enforcement of traffic laws, and keep the public well informed, which in turn prevents accidents.

From where I sit... by Joe Marsh

Doc Didn't Pull His Punch

The other day Doc Williams got to talking about one of his patients.

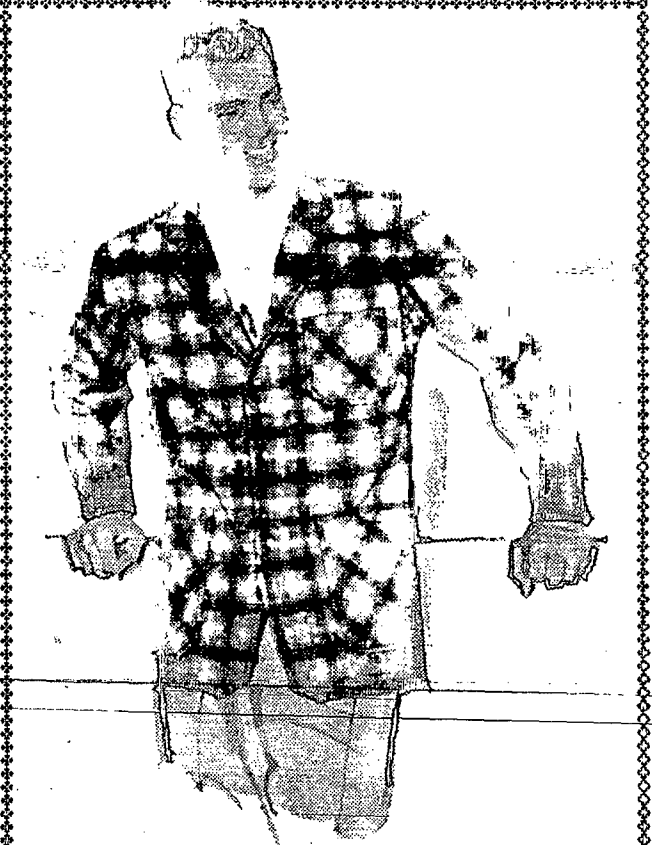

"This fellow had a bad tooth," he explained, "but I told him I could save it with a few prompt treatments. Then, after that one visit it was six months before he came back."

"This time," Doc said, "his cheek was all swollen up. It's that same tooth," he said. "Think we can save it?" Sure, I said, after I take it out you can put it in your pocket and take it home with you."

From where I sit, trouble gets worse with neglect. That's why we should never ignore "intolerance" in any form. Sometimes it crops up in little things like begrudging a man his right to a glass of beer, or telling him what kind of television programs he should watch. Let's all respect our neighbor's preferences and opinions. That way we won't "pull" at each other's freedom.
